

WROUGHT IRON

F O R G I N G

*Artistry*

From the very beginning, wrought iron has stamped its noble place in history as being a symbol of strength and beauty. With works dating as far back as 3500 B.C., wrought iron has been used for practical applications for its durability. Through the centuries, decorative and elaborate iron work has become an important architectural statement. We are proud to keep this remarkable custom alive with the Kirsch® Wrought Iron Collection. Our skilled ironworkers still use the time-honored methods to form classic, heavyweight wrought iron products, while protecting the authenticity of the craft and keeping the timeless practice of this beautiful tradition alive.
