

Luminette®

Privacy Sheers

HunterDouglas 

Luminous Luminette®

Clearly Appealing

Great design is easy to live with.

Beauty and Function

Soft face fabric attached to vertical fabric vanes enhances functionality.

Selection and Durability

Wide selection of fabrics, textures and colors with the inherent durability of 100% polyester.

Expansive Views

Open your home to spectacular views and landscapes with sizes up to 192" wide by 120" high in a single fabric panel.

Peace of Mind

All operating systems offer enhanced child and pet safety, as well as a lifetime limited warranty.

The Whole House Solution™

Perfect For Horizontal and Vertical Solutions

Achieve superior color coordination between Luminette® sheers and Silhouette®, Pirouette® or Vignette® products.

Originale™

Silhouette Originale fabric and Luminette Originale fabric use the same color names and numbers for easy coordination.

Stria

Luminette sheers and Pirouette shadings use the same fabric for exquisite coordination.

Sheer Linen

Luminette sheers and Vignette Modern Roman Shades partner with this coordinating fabric in four colors.

Terra

Silhouette Terra fabric uses the same face fabric and color names for consistent, casual coordination.

Coordinated Motorization

A single, innovative hand-held remote operates all PowerView® Motorization products.

Inviting Light

UV Protection

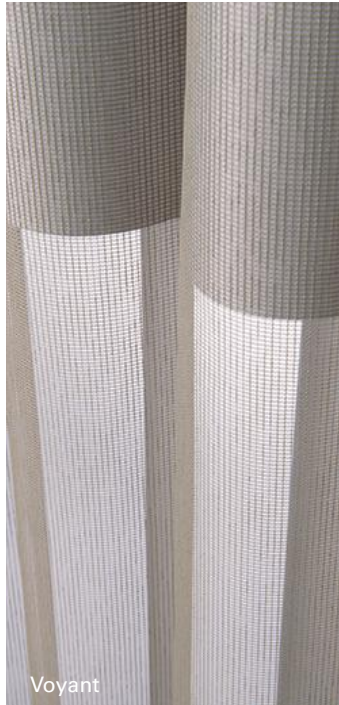

Protect floors, furniture and artwork from the sun's harmful rays even when the vanes are open.

Daylighting

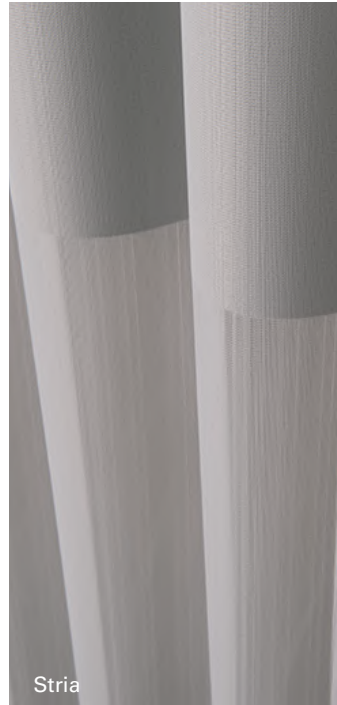

Face fabric diffuses sunlight coming into the room, reducing the need for interior lighting.

Sheer Linen

Terra

Eight Sheer Fabrics

Solar Screen

Stylish with a clean, sleek edge and superb durability.

Voyant™

An understated pattern for enhanced view-through.

Stria

A light and sophisticated touch with clean, crisp lines.

Angelica

An elegant traditional sheer with the look of voile.

Originale™

Closely coordinates with Silhouette® Window Shadings.

Linéa

Offers a soft vertical texture.

Sheer Linen

For a smartly tailored, linen appearance.

Terra

Features the inherent appeal of organic elements.

SofTrak

Exclusive SofTrak™ Hardware

Sleek and Concealed

SofTrak™ hardware was designed to be concealed by the fabric.

Smooth and Reliable

Scissor-track operation is smooth and reliable; spacing is consistent.

Manual or Motorized

Select the Combination Wand/Cord or Traveling Wand™ manual systems, or PowerView® Motorization.

Safety

No dangling cords for enhanced child and pet safety.

Inside Mount

Outside Mount

Floor to Ceiling

Outside Mount to the Floor

Outside Mount, Measured for Stackback

Outside Mount, Measured for Stackback

Installation Options

Choose the option that best fits your application.

All mounting options available in left, right or split stack.

Inside Mount

Inside mounts are not recommended due to light gaps that occur on the sides when the vanes are closed.

Outside Mount

- Allows the vanes and fabric to operate freely.
- Provides complete fabric coverage and enhances light control and privacy features.

Overlaps

Be sure to measure for the recommended outside mount height and width overlaps.

Stackback

Outside mounts allow the sheer to stack back off the window for an unobstructed view.
