Designer Banded Shades

BUCKINGHAM : ORGANZA : BUCK101 : DECK 14

INTELLIGENT DESIGN

Designer Banded Shades combine sheer and solid alternating fabric bands into a single shade. This design concept allows the shade to transition from open to closed seamlessly, providing a modern solution for view-through, light control and privacy.

COASTAL : VILLA WHITE : CSTL101 : DECK 22

PERSONAL PIZAZZ

Who said banded shades have to feature only straight fabric bands? Dynamic geometric shapes create drama, dimension and interest not only at the window, but also in the light that cascades into the room. These styles function like a traditional banded shade, but with a little added personality.

EVOKE : GLOW : EVK101 : DECK 23

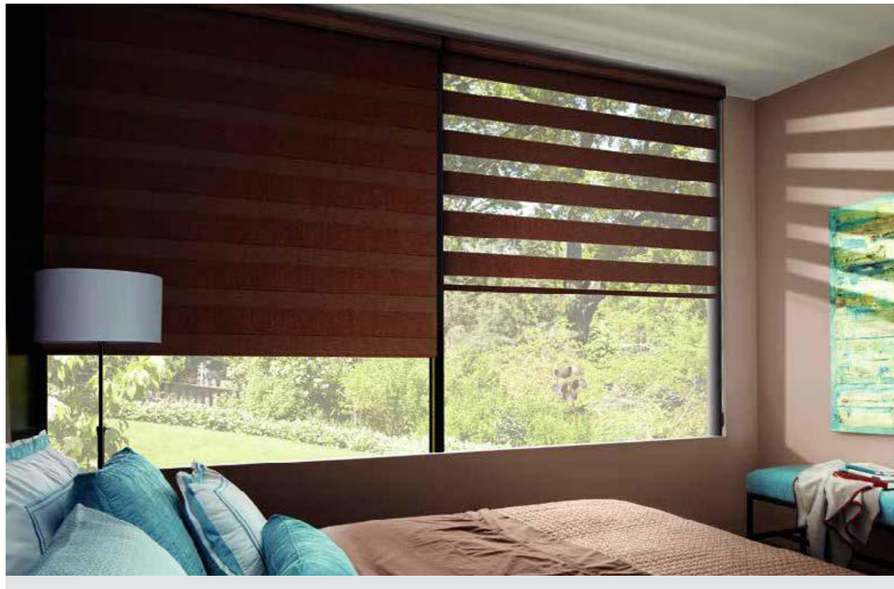
OPEN POSITION: Sheer fabric bands align to create view-through and provide soft filtered light.

FLEXIBLE FUNCTIONALITY

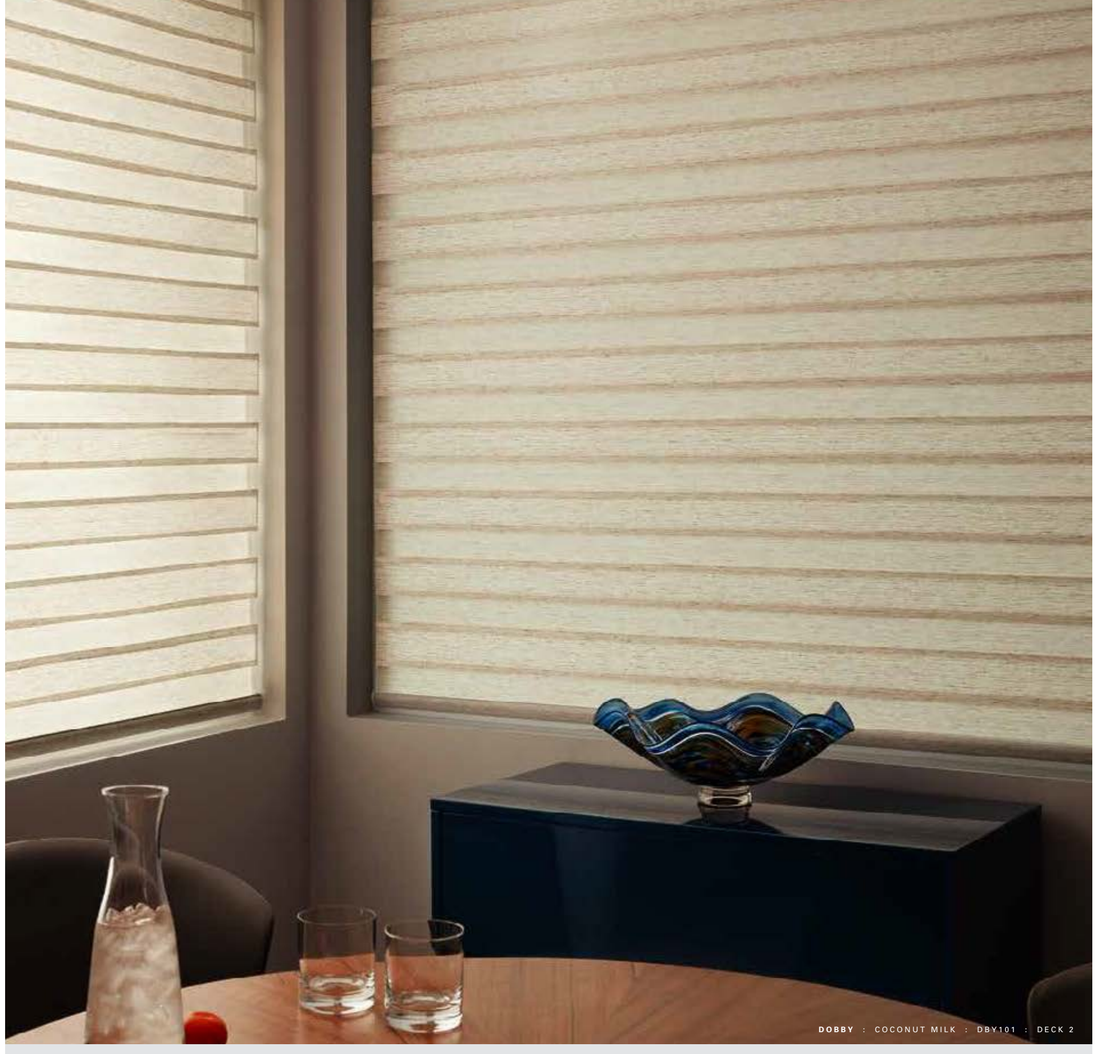
Designer Banded Shades feature a single piece of fabric that loops at the bottom bar to create a double layer of fabric in the window. When operated, the sheer and solid fabric bands transition seamlessly by each other.

Shades can be positioned to either open or closed when they are in the raised or lowered position allowing for complete privacy, filtered light or view-through with a single shade.

CLOSED POSITION: Sheer and solid fabric bands align to create privacy and block light.



RAISED POSITION: When shades are raised the bands are completely operable and can be aligned in either the open or closed position.



LIGHT FILTERING FABRIC

Outside light is filtered, creating a soft, warm glow on the shade while naturally dimming the light in the room. Provides a degree of light control.

ROOM DARKENING FABRIC

Outside light does not pass through the fabric, blocking most light from entering the room. Ideal for rooms where you want more light control.

OPACITY

The collection features styles in light filtering or room darkening. The specific opacity for each fabric is indicated on the style deck and in the product index. Select a fabric with the opacity that fits your light control needs.

SMALL BAND

Solid band height 2 ⅞"

Sheer band height 2" to 2 ⅛"

BAND HEIGHT

Select your view. Designer Banded Shades are available in three different band heights. Take a look at the photos to compare the band heights and select the view that's best for you.

The band height is indicated on each fabric style deck so you can select a style that fits your preference. When the sheer fabric bands are aligned it creates a diffused view-through.

STATED BAND HEIGHTS ON EACH STYLE IN THE COLLECTION CAN VARY SLIGHTLY AND ARE WITHIN INDUSTRY STANDARDS.

MEDIUM BAND

Solid band height 3" to 3 ⅛"

Sheer band height 1 ⅞" to 2 ⅛"

LARGE BAND

Solid band height 3 ⅞" to 4 ⅝"

Sheer band height 2 ¾" to 3 ¼"

Design Studio™

Let the collection of Design Studio custom fabrics excite and inspire you. The extensive selection of colors, patterns and textures are designed to complement and enhance any decor and finish your window in style.

DESIGN VERSATILITY

Designer Banded Shades are the foundation for your room. They can stand-alone as a strong design statement or pair with fabrics from the Hunter Douglas Design Studio™ collection to finish a window with flair. From modern to traditional and every style in between – be inspired.

MCCORMICK : ONYX : MCRM901 : DECK 1

OPERATING SYSTEMS

EXCLUSIVE AND PATENTED OPERATING SYSTEMS PROVIDE SUPERIOR FUNCTIONALITY FOR YEARS OF TROUBLE FREE OPERATION.

SOFTTOUCH™ MOTORIZATION

SoftTouch™ is a battery-powered, motorized lifting system designed for simple, intuitive wand-controlled shade operation. Gently pull wand down to close the shade and a slight push up on the wand to open.

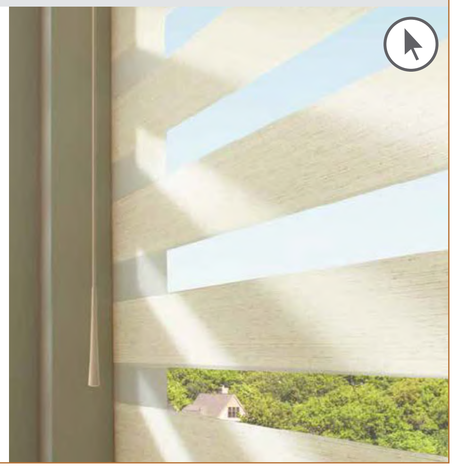
System features:

- Superior Child Safety – Absolutely no exposed cords
- Favorite position functionality allows for a simple operation of the wand that moves your shade to your favorite position in the window
- Battery life up to 2 years (dependent on use)
- Wand available in 8 Custom Hardware Colors

CUSTOM HARDWARE COLORS

WHITE TIARA 661 · RICH CREAM 320 · DESERT TAN 859 · DESERT GOLD 903

DUCHESS GREY 651 · NICKEL 316 · BRONZE 064 · BLACK 048



DOBBY : COCONUT MILK : DBY101 : DECK 2

ULTRAGLIDE®

Exclusive to Hunter Douglas, the revolutionary retractable cord with constant cord length provides enhanced safety.

SOUTH BEACH : PLATINUM : SOUB801 : DECK 8

CUSTOM CLUTCH

The Custom Clutch is the standard operating system for Designer Banded Shades. This patented system provides superior functionality, shade-to shade lift uniformity, precise operation and a minimal light gap that is equal on both sides.

ZOEY : BALTIC SEA : ZOE601 : DECK 16

MILLENNIUM : PARISIAN TAUPE : MILL401 : DECK 4

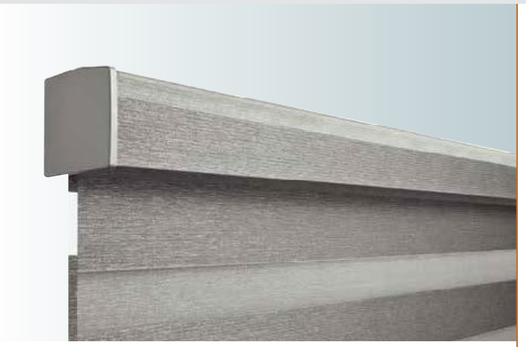
TOP TO BOTTOM

SQUARE CASSETTE

The modern square shape of the cassette conceals the fabric roll. The cassette comes wrapped with two layers of the solid and sheer banded fabric to emulate the look of the shade. When multiple shades are ordered, band position on the cassettes will be consistent for uniformity within the room.

For a sleek look, an unwrapped cassette option is available in 8 Custom Hardware Colors.

Cassette size, small or large, is predetermined based on the shade size ordered. For aesthetic consistency within a room where you have different size shades, you can request the larger cassette size for all shades.



SMALL SQUARE CASSETTE

LARGE SQUARE CASSETTE

BOTTOM BAR

Exclusive to Hunter Douglas, the innovative bottom bar allows the shade to taper and narrow from top to bottom. By gently reducing the space between the front and back fabric the shade maintains band alignment and uniformity. The sleek design of the bottom bar enhances the look of the shade and is available fabric-wrapped or in 8 Custom Hardware Colors.

CUSTOM HARDWARE COLORS

FEATURES & BENEFITS

PRODUCT ATTRIBUTE	PRODUCT FEATURES	CONSUMER BENEFIT
Designer Banded Shades Fabric Collection	The shade combines alternating solid and sheer fabric bands featuring an array of textures and colors.	Choices to fit any décor and any design preference.
Opacity Options	Light Filtering	Diffuses light and provides moderate light control.
	Room Darkening	Blocks most light and provides maximum light control.
Multiple Band Heights	Solid fabric band heights are available in small, medium or large sizes. Providing options for view-through, privacy and light control.	Band height determines amount of view-through. Provides more options for view-through, privacy and light control.
Proprietary Lifting Systems:		
PowerView® Automation	PowerView Automation features both wireless technology and hard-wired solutions for whole home automation.	Multiple power source options available to fit each unique application and allow for smart home communication.
Custom Clutch	Standard system	Smooth and precise operation makes large shades easy to raise.
UltraGlide®	Retractable cord/consistent cord length	Easy to operate, clean look and enhanced style.
SoftTouch™ Motorization	Battery-Powered	Operates shades with a gentle pull down on the wand to lower or push up to raise.
Flexible Functionality	Shades can be positioned open or closed even when they are lowered or partially raised.	Provides maximum shade position functionality options for controlling view-through, privacy and light control.
Top Treatments	Square Cassette included with every shade	Available standard fabric-wrapped or as option in one of 8 custom hardware colors. Covers fabric and provides a finished look to the shade.
Bottom Bar	Unique, exclusively designed bottom bar	Innovative design allows the fabric to slide through the bottom bar to position the bands for view-through and light control.
Color Coordinated Hardware	8 custom hardware colors	Coordinates with all fabrics in the collection for a complete, finished look.
