

Nantucket™

# ORDINARY TO EXTRAORDINARY!

Same room, same time of day...  
Look at the difference Nantucket™  
window shadings make.

FABRIC:  
Brant Point™  
COLOR:  
Hatteras

Intense light makes even the most  
welcoming room uninviting.

PRACTICAL BENEFITS

**TRANSFORM HARSH SUNLIGHT**  
Vanes and sheers combine to softly filter light.

**PROVIDE UV PROTECTION**  
Up to 88% UV protection with the vanes open, 99% when closed.

**ENHANCE NATURAL DAYLIGHTING**  
Sheers disperse sunlight deep into the room, reducing the need for artificial light.

**PRESERVE OUTSIDE VIEWS**  
No cords or tapes run through the shading to obstruct views.

**SECURE DAYTIME PRIVACY**  
Views to outside are clear, while view from street is obscured during the day.

**REFLECT SOLAR HEAT**  
Exterior white sheer reflects the sun's heat.

ADDITIONAL ADVANTAGES

**EXCLUSIVE OPERATING SYSTEMS**  
Only Hunter Douglas offers unique, proprietary systems for years of dependable operation.

**ROLL UP AND AWAY**  
Soft fabric vanes collapse and roll into a sleek headrail.

**PRECISE LIGHT CONTROL**  
Vanes tilt to achieve just the right amount of natural illumination.

**NO DISTRACTING MOIRÉ**  
Patented, anti-moiré fabric technology eliminates dizzying sheer-over-sheer patterns for a clear but softened view.

**DUOTONE™ COLOR**  
White back sheer and vane deliver a clean, consistent look to the exterior of a home.

**LIMITED LIFETIME WARRANTY**  
Hunter Douglas products are covered for defects in materials, workmanship or failure to operate.

# UNRIVALED BEAUTY

## SHADES ARE LIMITED

- Block views completely when lowered
- Allow sunlight glare with no UV protection when raised
- No varying light control due to single, up-or-down operation

## BLINDS ARE HEAVY

- Distracting tapes and cords detract from outside views
- Open slats allow harmful UV rays to enter room
- Weight makes raising slats difficult and creates large stack in window

## SHUTTERS ARE BULKY

- Multiple louvers, bars and frames diminish view to outside
- Frame construction creates dark, closed-in feel
- Panels protrude into room when open

## EXCEPTIONAL AMERICAN DESIGN AND CRAFTSMANSHIP

When it comes to the best in window fashions, American-crafted Hunter Douglas products provide the superb quality that makes consumers repeat customers. As the leading manufacturer and marketer of custom window fashions, Hunter Douglas leads the industry with unique, award-winning, energy-efficient solutions – designed and custom-assembled in state-of-the-art development facilities and manufacturing plants throughout the United States.

For more than 60 years, Hunter Douglas has made a commitment to customers to provide the very finest customized choices for window design needs, as well as first-rate customer service, knowledge and experience to help you along the way. Hunter Douglas window fashions are designed and custom-assembled in the USA.

## DESIGNED WITH SAFETY IN MIND

- Absolutely no cords run through any fabric panel, maximizing view-through and enhancing child safety
- Proprietary operating systems are available in both cordless and specially designed single-cord applications, eliminating or reducing cord accessibility for enhanced safety and streamlined appearance

## NANTUCKET™ WINDOW SHADINGS

- Offer expansive view-through while providing exceptional UV protection
- Diffuse light, creating soft glow throughout room
- Disappear into headrail for maximum view
- Provide superior light control and privacy when needed

## ATTITUDE ADJUSTMENT

Change the mood of any room  
by simply adjusting the light  
that enters it.

**TRANSFORM HARSH SUNLIGHT**

Recast harsh light into  
a soft, ambient glow.

FABRIC:  
Brant Point™  
COLOR:  
Reyes

## SECRET SERVICE

Take in a sunny view and still  
protect what is important to you.

PROVIDE ULTRAVIOLET PROTECTION

FABRIC:  
Boardwalk™  
COLOR:  
Deck Chair

Shadings protect fine  
furnishings, flooring  
and artwork from the  
sun's harmful rays.

FABRIC:  
Front Street™  
COLOR:  
Wicker Basket

Specially engineered  
sheers disperse sunlight  
deep into a room.

## BRILLIANT IDEA

Illuminate any room without  
switching on a single light.

**ENHANCE NATURAL DAYLIGHTING**

## THE BIG PICTURE

With no distracting cords or tapes, shadings provide uncluttered, expansive views.

**PRESERVE OUTSIDE VIEWS**

Specially crafted sheers also eliminate dizzying moiré and deliver soft, diffused, exterior views.

FABRIC:  
Sun Porch™  
COLOR:  
Regatta White

Dual sheers obscure views into your home's interior during the day without sacrificing views to the exterior.

## PRIVATE EYES

Celebrate privacy by shielding views to the inside while still enjoying views to the outside.

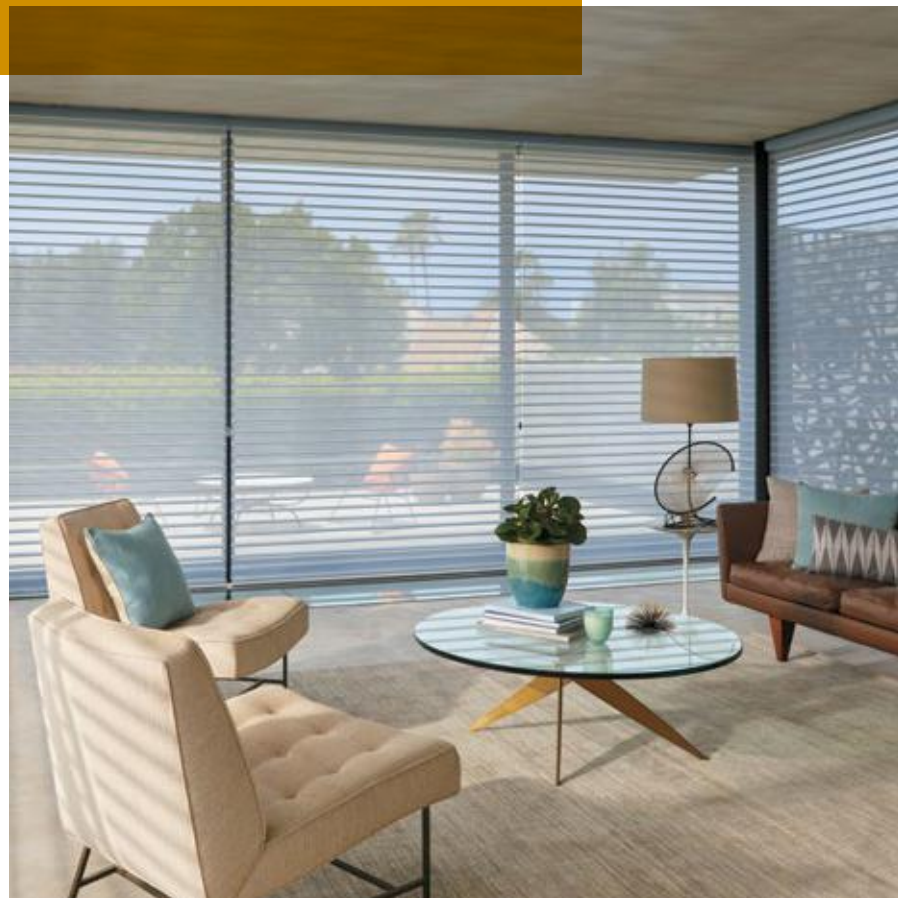

**SECURE DAYTIME PRIVACY**

## REFLECTIVE THOUGHT

Deflect solar heat and make  
a hot place your chill space.

REFLECT SOLAR HEAT

Exterior white vanes and  
sheers work to reflect the  
sun's heat, allowing you  
to keep your cool.

FABRIC:  
Boardwalk™  
COLOR:  
Seawater

### **SHEER GENIUS**

Nantucket™ Sunscreen Privacy shadings feature an innovative back screen fabric that combines the open look of a screen shade with the functionality of a shading.

FABRIC:  
Sunscreen  
Privacy  
COLOR:  
Black Pebble

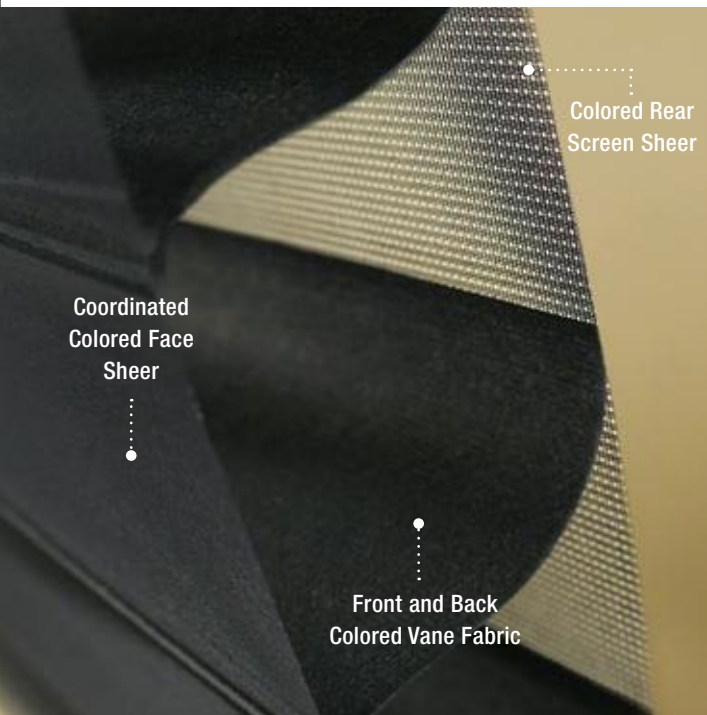

Typical Screen Shade

Nantucket™  
Sunscreen Shading

### NIGHTTIME PRIVACY

Complete privacy provided at night compared to typical screen shades.

- Vanes tilt for complete privacy at night

Colored Face  
Sheer

Front and Back  
Colored Vane Fabric

### EXTERIOR COLOR

The same color on both the interior and exterior sheers provides superior view-through.

FABRIC:  
Sunscreen  
Privacy  
COLOR:  
Black Pebble

#### **DIM LIGHT OR DIM SUM**

Open vanes to invite the light; close the vanes to dim the light with the Misty Harbor™ light-dimming fabric. Perfect for media rooms, dens and adjacent spaces; enjoy your apps and eat some, too!

### THREE LIGHT CONTROL OPTIONS

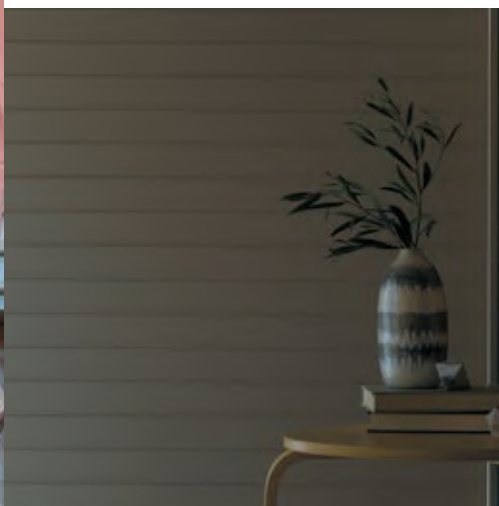

#### TRANSLUCENT

When closed, translucent vanes allow sunlight to gently filter through the fabric and fill the room with a warm glow.

#### LIGHT DIMMING

Light-dimming vanes block most, but not all of the light entering the room to create a tranquil environment.

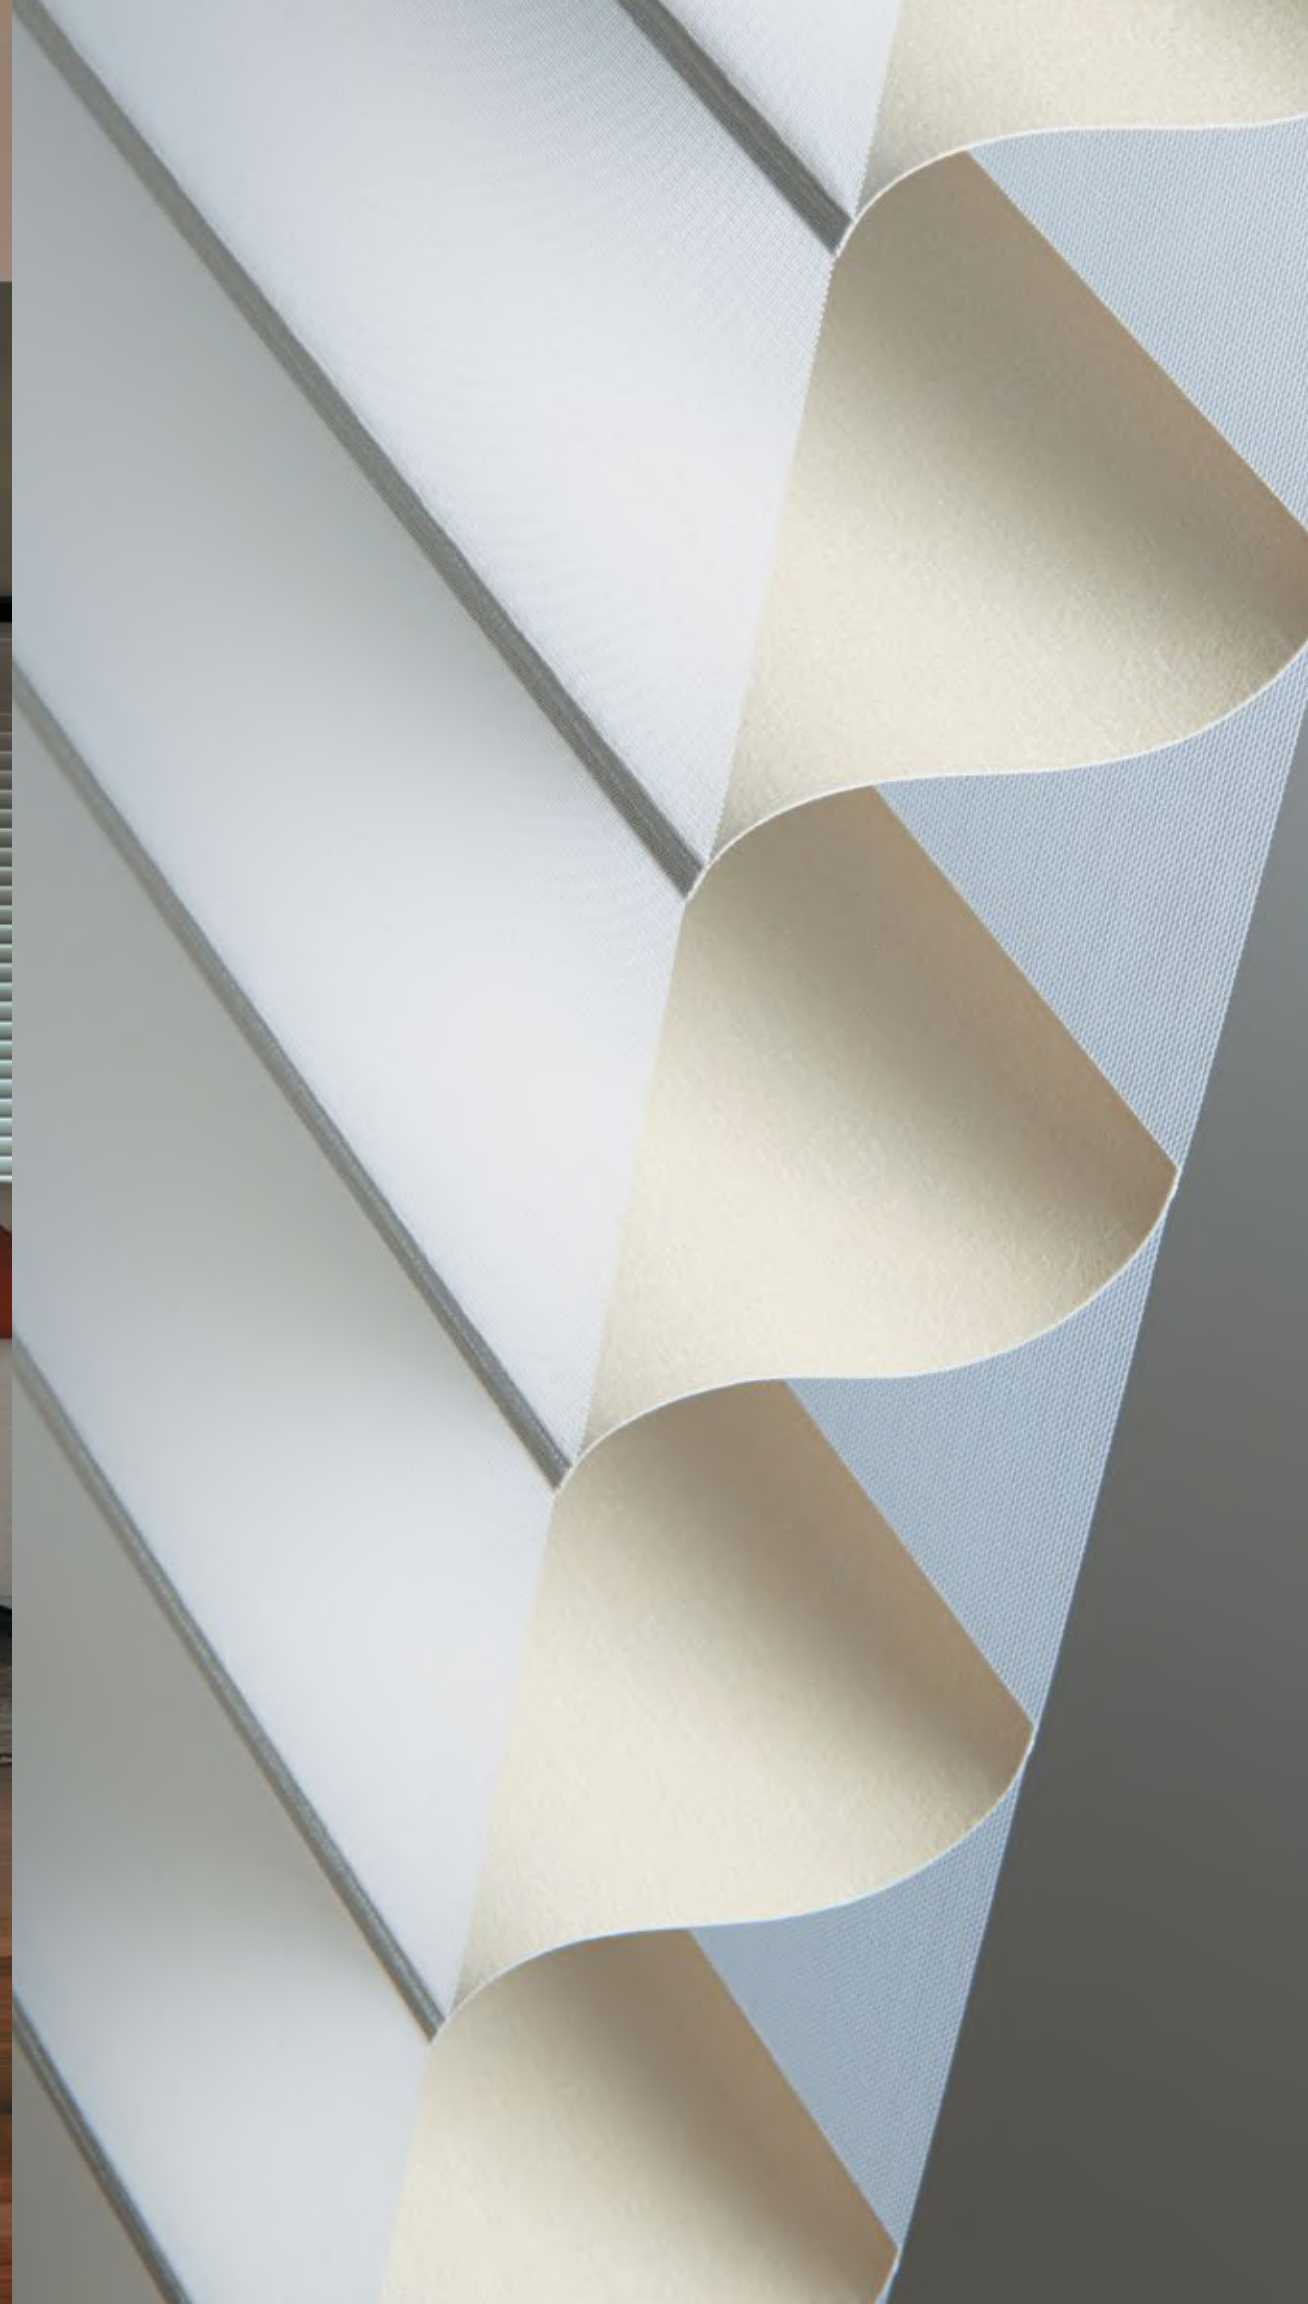

#### A DEUX™ ROOM DARKENING

The combination of a translucent shading and a room-darkening roller shade in a single headrail provides both light-filtering and room-darkening options.

FABRIC:  
Misty Harbor™  
COLOR:  
Wicker Basket

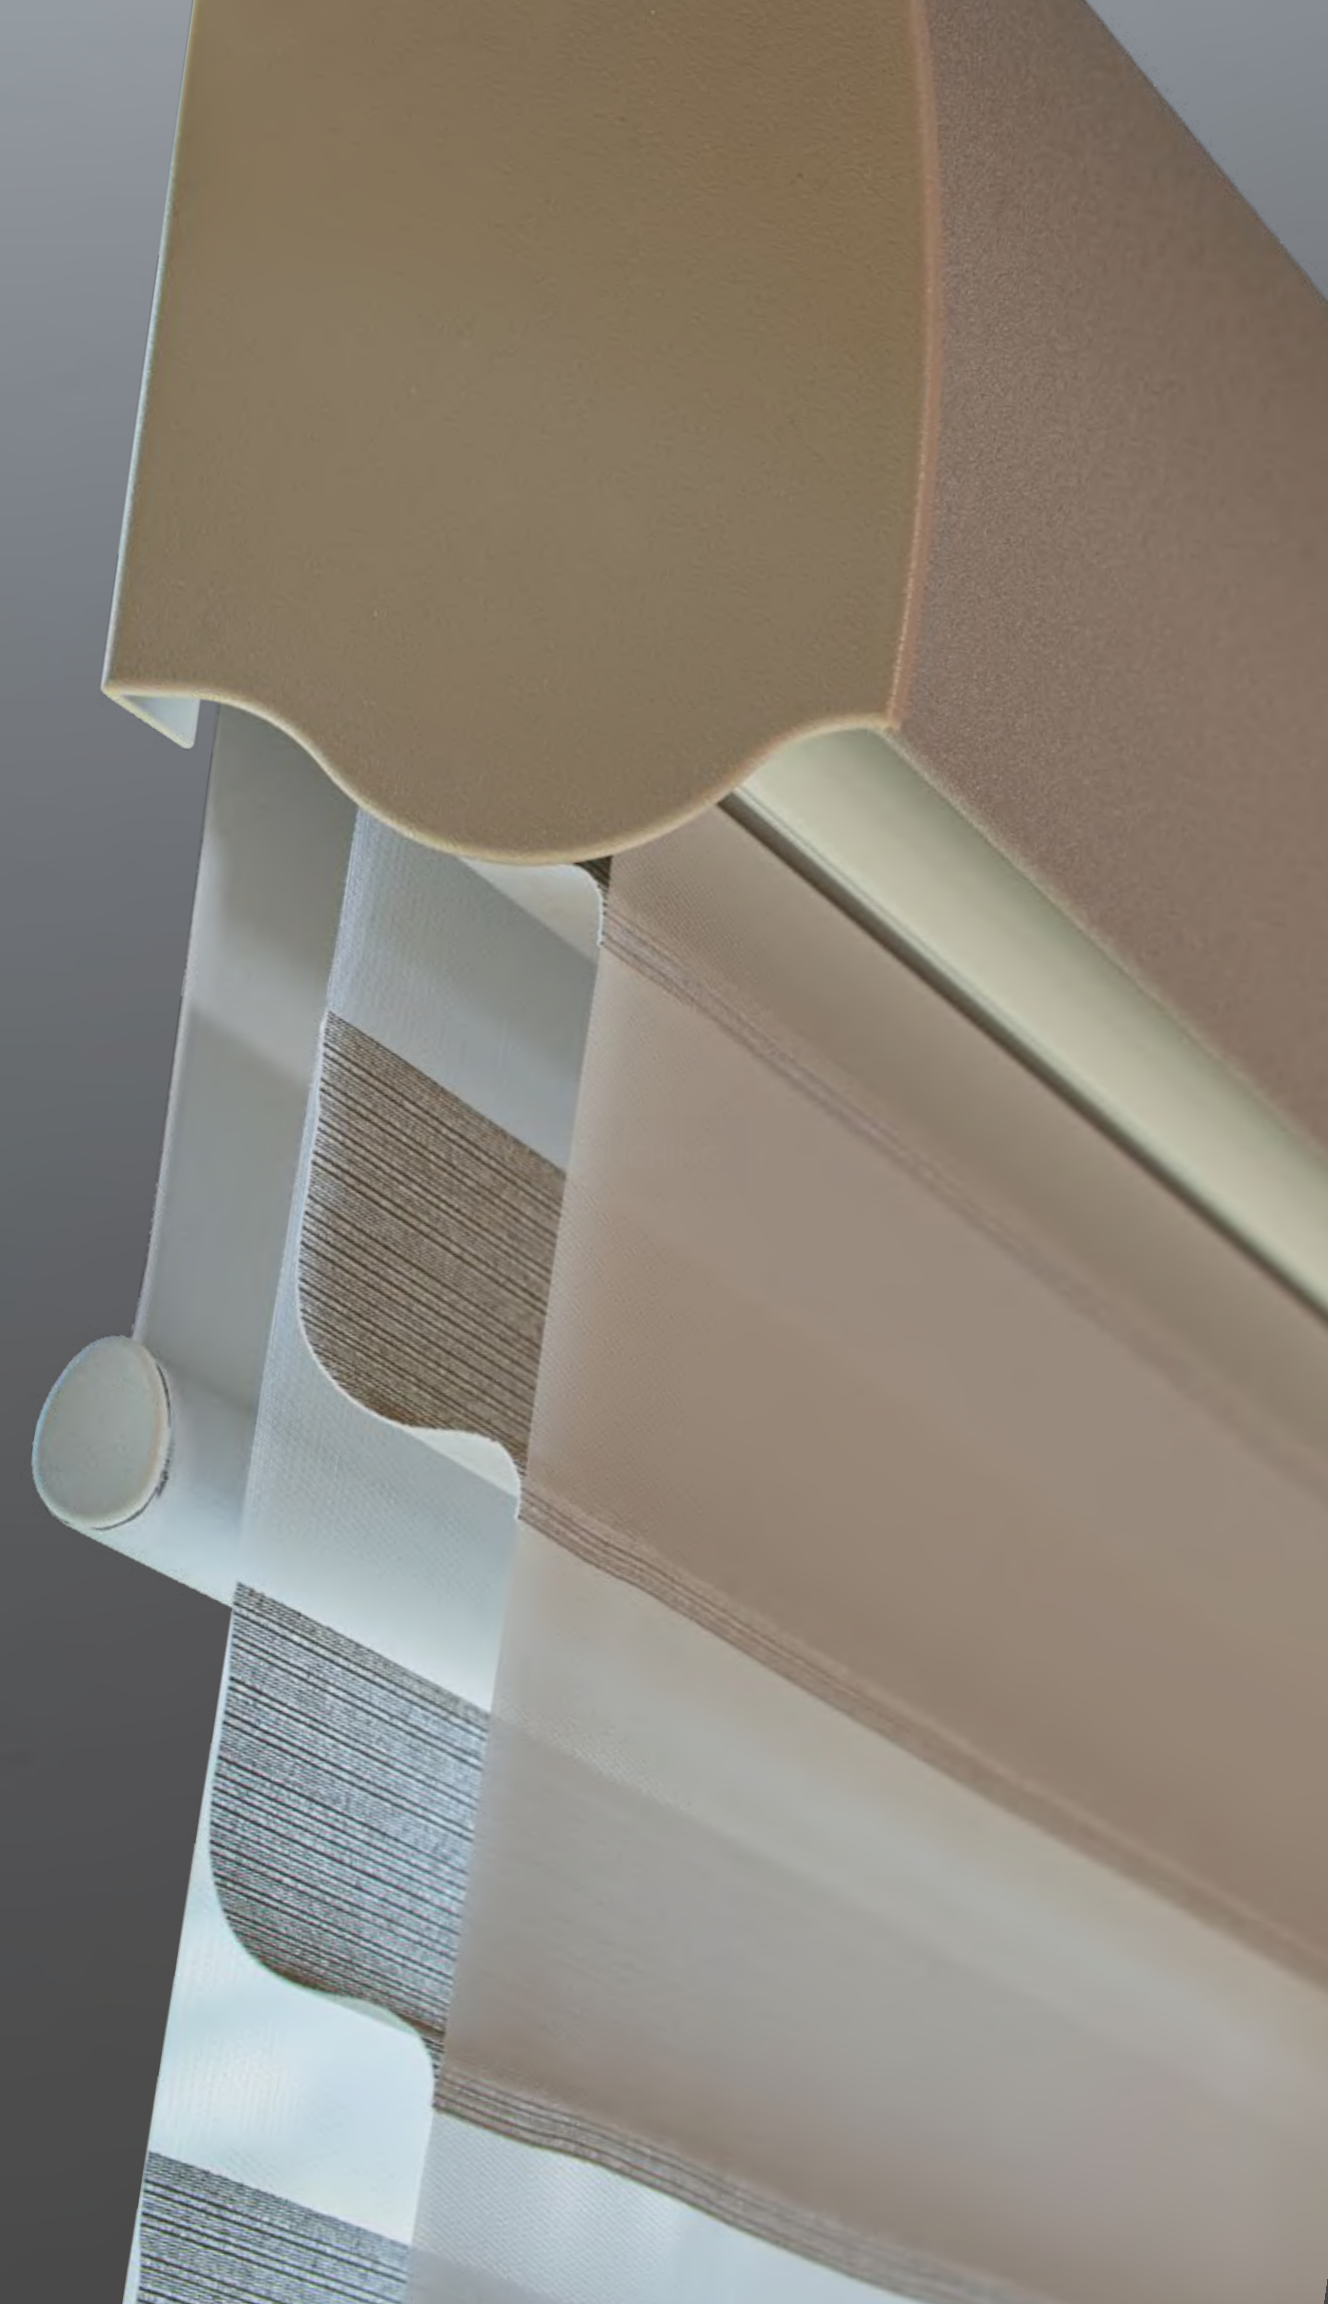

#### **DYNAMIC DUO**

Our A Deux™ two-in-one roller system provides the dual benefits of light-filtering and room-darkening options for any room.

**A DEUX™ TRANSLUCENT POSITION**  
Back shade can be raised into headrail.

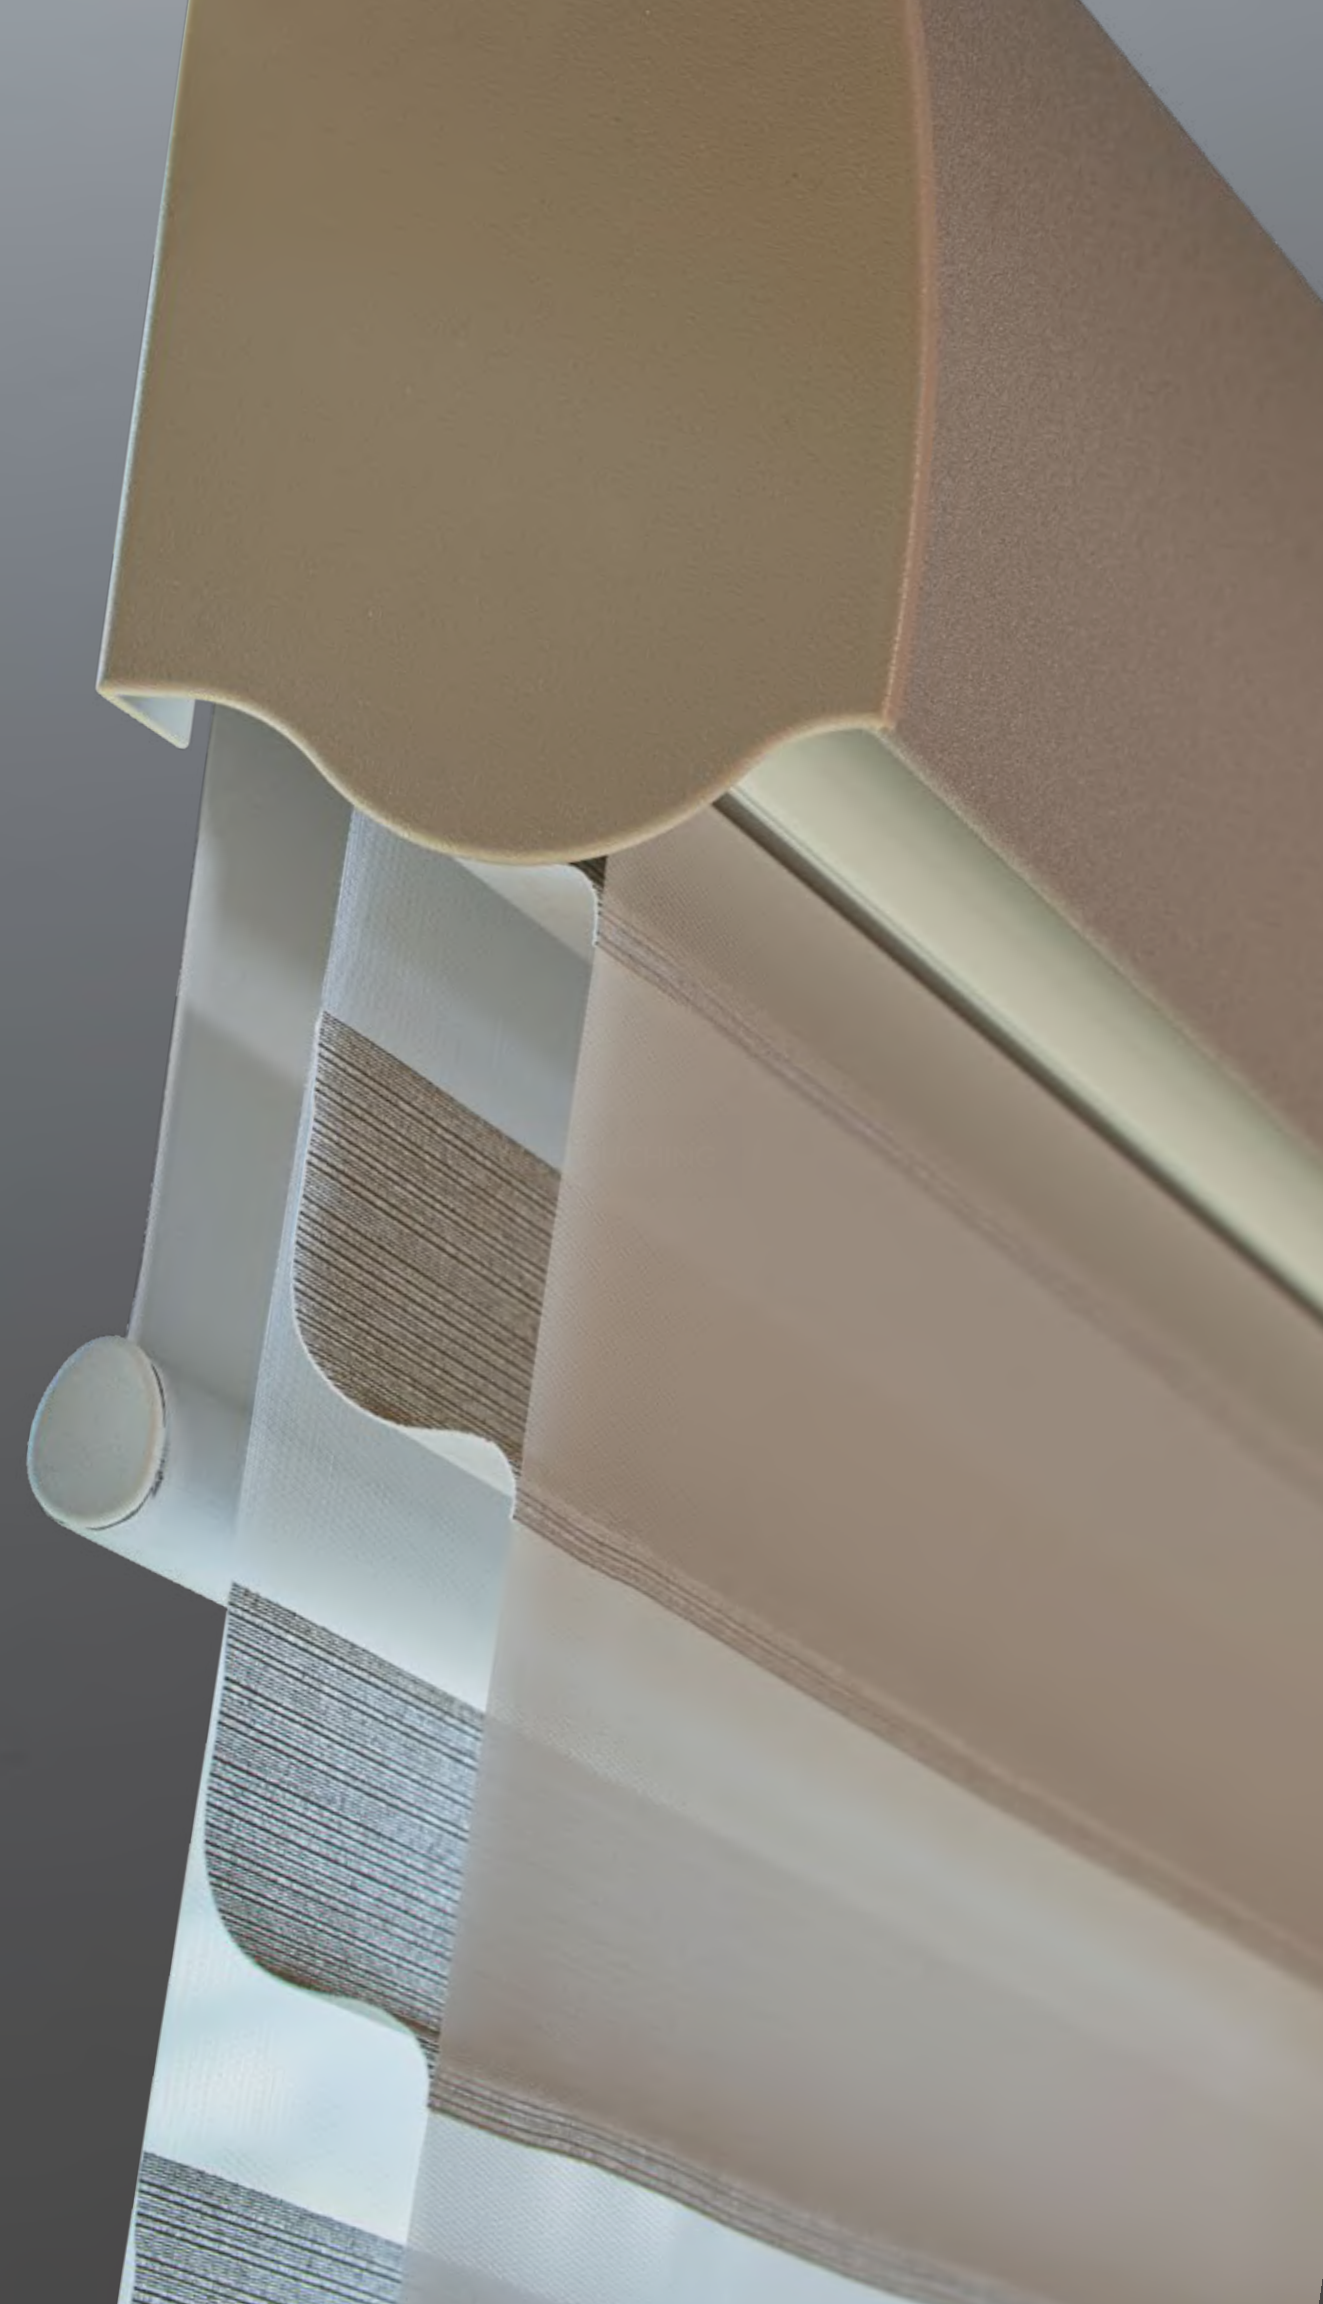

**A DEUX COMBINATION POSITION**  
Back shade can be independently positioned in window to provide controlled light and view.

**A DEUX ROOM-DARKENING POSITION**  
Completely lowered, back shade provides room-darkening versus light-dimming option.

FABRIC:  
Brant Point™  
COLOR:  
Augustine

# CORDLESS OPERATING SYSTEMS

**POWerview PEBBLE™ REMOTE** available in seven unique colors. Mix and match colors to find the perfect combination for your home.

**OUR INTUITIVE POWerview APP FOR APPLE® AND ANDROID™** mobile devices is designed to complement your lifestyle. Create Scenes to balance different lighting and privacy needs throughout the day.

## POWerview™ MOTORIZATION

- With no operating cords, PowerView™ motorization creates a safer environment for young children and pets
- Transform light and mood with the press of a button or tap on a mobile device
- Battery-operated and plug-in power options available
- Perfect solution for newly constructed and existing homes

## LITERISE® SYSTEM

- Clean, uncluttered look from top to bottom
- Vanes tilt for privacy and light control
- Soft-touch handle with fabric guard
- Minimal light gap 5/16" per side
- Completely cordless for enhanced child safety

**TO LOWER** Steadily pull down on handle to desired position.

**TO OPEN** Place fingertips on back ledge of handle and place thumb on front tab of handle. Pull back of handle down and away from window.

**TO RAISE** Push down on front of handle to completely close shading. Steadily push up handle to guide shading into the headrail.

# CORDED OPERATING SYSTEMS

**TO OPERATE** Lower shading by pulling rear cord downward. Close, tilt and raise shading by pulling downward on front cord.

**TO INSIDE MOUNT** Cord tensioner can be installed directly to inside of window casement or on drywall frame around window.

**TO OUTSIDE MOUNT** Cord tensioner can be installed with added clear bracket outside the window casement or inside for easier operation access.

## EASyRISE™ SYSTEM

- Continuous cord loop system
- Easy operation even on extra-large shadings
- Cord tensioner mounts to frame for enhanced child safety

**TO LOWER** Pull cord toward center of shading, click and release.

**TO TILT VANES** Gently pull straight down and/or outward on cord to position angle of vanes.

**TO RAISE** Pull entire cord out and directly downward, allow cord to then completely retract into the headrail. Repeat until shading reaches desired position or is completely raised into the headrail.

## ULTRAGLIDE® 2 *CLICK AND WALK AWAY™* SYSTEM

- Retractable single-cord operation for enhanced child and pet safety
- One click of the cord allows shading to lower and open automatically
- Cord length can be adjusted for convenient operation and safety

# DESIGN OPTIONS

## SPECIALTY SHAPES

- Vanes remain in a fully opened position and are non-operable
- Arches and angles can also be ordered completely closed and are non-operable

## TILT-ONLY

- Tilt vanes from open to closed
- Shadings remain in lowered position and do not roll up into the headrail

# MOUNTING PROFILES

## CLASSIC HEADRAIL

OUTSIDE MOUNT

SEMI-RECESSED

FULLY RECESSED

## A DEUX™ HEADRAIL

OUTSIDE MOUNT

SEMI-RECESSED

## TIPS FOR MOUNTING DEPTH

**Outside Mount** – Shading can be mounted outside window opening

- To minimize light leakage, overlap product 3" to 4" on each side of the window opening

**Inside Mount** – Shading can be mounted within window opening

- Minimum depth of 1" required for all inside mount installations
  - 2" depth required for PowerView™ systems with battery wand
- Fully recessed headrails require a casement depth of:
  - 3 5/16" EasyRise™, UltraGlide 2® *Click and Walk Away*™ and LiteRise® operating systems
  - 4 1/16" PowerView system
  - 4" A Deux™ LiteRise and EasyRise systems, 4 3/4" for A Deux PowerView system with battery wand
- LiteRise system offers least amount of light leakage on each side of the shading

## MAGNETIC HOLD-DOWN BRACKETS

- Secure shadings on French doors and sidelights
- Available on all operating systems

## PALETTE® FABRIC-COVERED HEADRAIL

- Upgrade surcharge option on all Nantucket™ shadings
- Included on all Sunscreen Privacy and A Deux™ shadings

## TWO-ON-ONE HEADRAIL

- Two fabric panels operate independently on one continuous headrail
- Available on all operating systems

## A DEUX™ OPTION

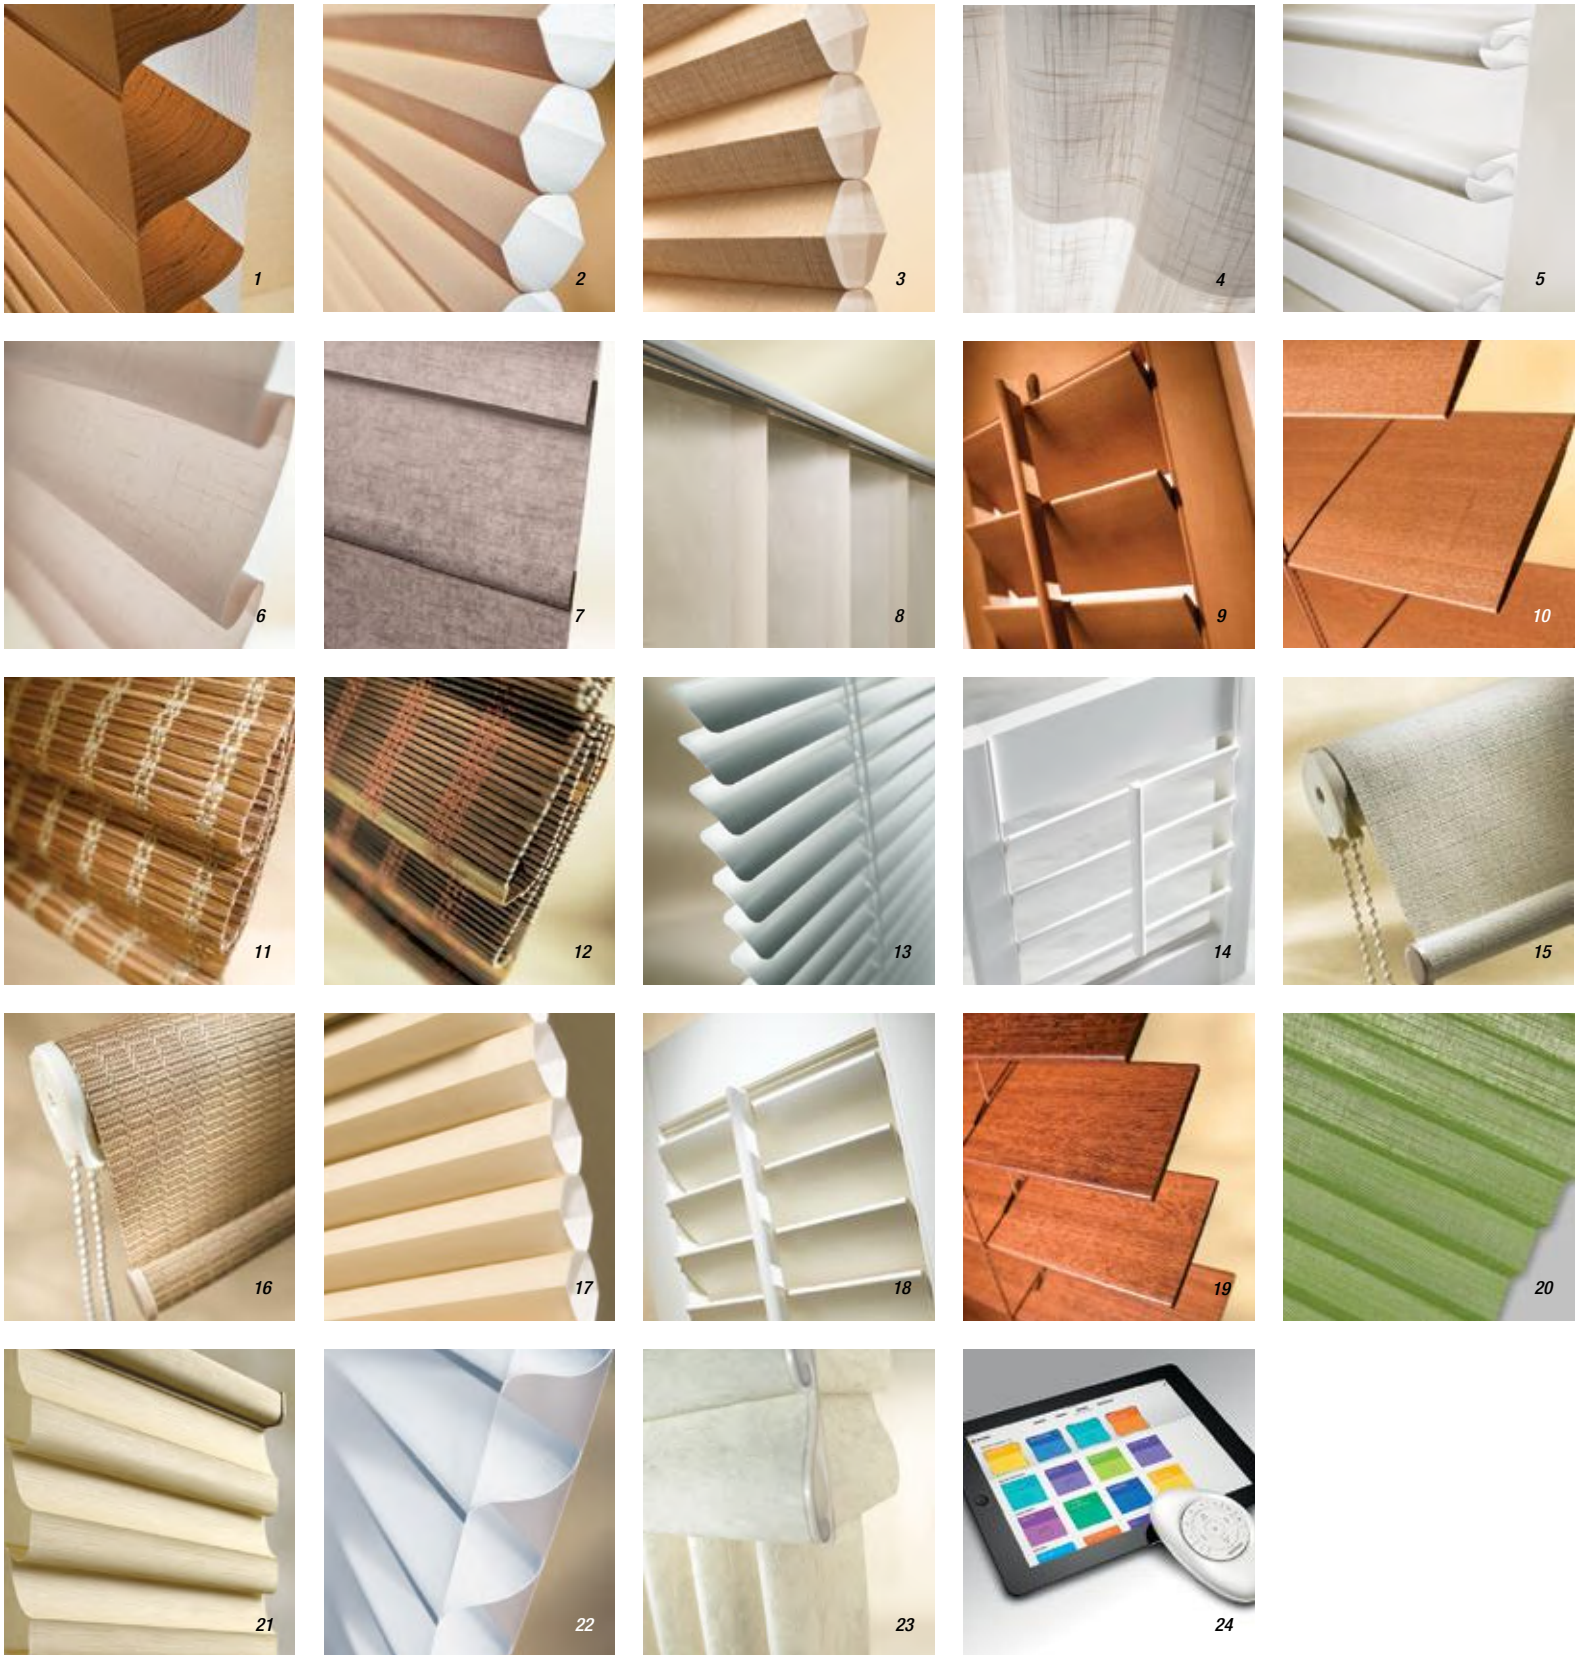

- Available with same operating systems: EasyRise™/EasyRise, LiteRise®/LiteRise and PowerView™/PowerView
- Available with mixed operating systems: EasyRise/PowerView and LiteRise/PowerView

The Hunter Douglas array of custom window fashions just keeps growing and improving. More intriguing styles and colors. More attractive features and designs. More ways to easily control light. More opportunities to increase energy savings.
