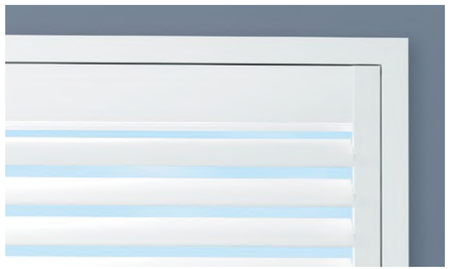
The Hunter Douglas Whole House Solution™ ensures every window in your home is artfully dressed with beautiful, innovative window fashions.

Cordless operation
offers enhanced safety
for children and pets.

6610 Polar White with 4½" Louver and Standard Z-Frame



Beauty and Distinction

NewStyle® Hybrid Shutters combine the look of wood with the strength of modern-day materials, making beautiful, high-quality shutters the perfect choice for any home.

Superior Quality and Strength

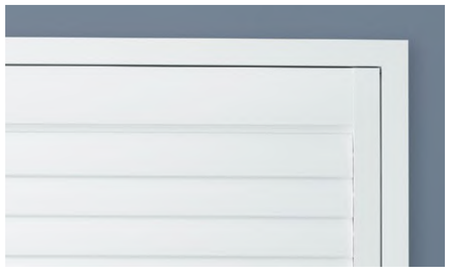
Like fine furniture, NewStyle shutter panels feature Truemill® dovetail construction that creates strong panels for lasting value. Where needed, the shutters are also reinforced with Crosslink™ construction for additional strength and straightness.

Colors and Finishes

The low-luster Finetech® finish gives NewStyle shutters the appearance of a fine wood shutter. Color options include a selection of classic whites, as well as UltraGrain™ finishes that replicate the look of genuine wood.

Advanced Operation

Exclusive SoftClose™ louvers feature one-touch control for soft, smooth closure, similar to the technology found in high-end cabinetry. Staytite™ Louver Tension maintains optimum louver tension for the life of the shutters, without the need for adjustment.



Outstanding Insulation

When fully closed, NewStyle® shutters reduce heating and cooling costs to help save money at the window, block 99% of harmful UV rays to protect furniture and flooring, and minimize outside noise for a more tranquil home.

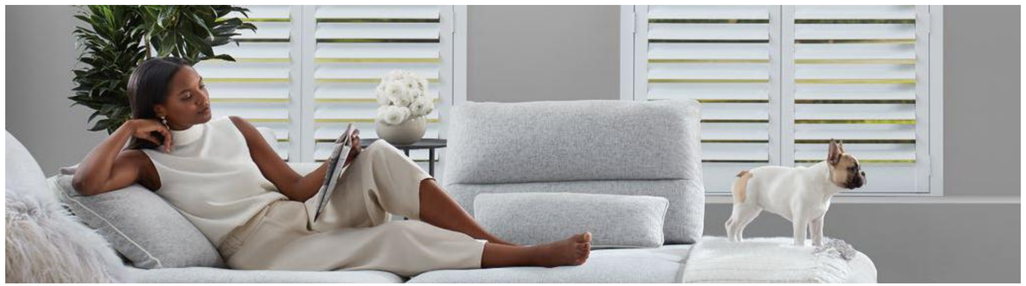
Enhanced Air Quality

NewStyle Hybrid Shutters are GREENGUARD® Gold Certified for low indoor chemical emissions, helping to create a healthier indoor environment.

The Whole House Solution™

NewStyle shutters coordinate with a wide array of Hunter Douglas window fashions, including horizontal blinds and drapery, for beautifully dressed windows throughout the home.

Benefits include high-quality material composition and advanced operation.



Daylighting
Shutters provide energy efficiency by drawing natural light into a room, reducing the need for artificial lighting.

Split Tilt
For more privacy, choose split tilt with independent upper and lower louver operation.

Divider Rail
Add strength to larger panels with divider rails, while allowing independent upper and lower louver operation.

Astragal
Optional feature to cover the gap where two panels meet, helping to minimize any light passing between rabbeted stiles.

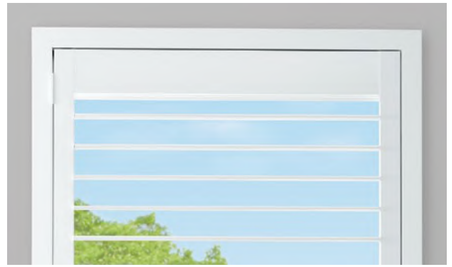
2½" Louver
Ideal for smaller windows.

3½" Louver
A pleasing standard louver size.

4½" Louver
Provides a more expansive view.

6610 Polar White with 3½" Louver and 2" Modern Z-Frame with Sill Bottom

Traditional Front Tilt
Front tilt bar connects louvers for easy tilt operation.



HiddenTilt™
A gear-driven system with no external tilt bar for unobstructed views.

SoftClose™ Louvers
A patented, self-closing mechanism featuring smooth, controlled louver closure with a single touch.

Several tilt options are available for personalized light control and privacy.

Standard Hinged Panels with Equal T-Post Locations

6651 White Lace with 3½" Louver and Colonial Casing Frame

Standard Hinged Panels with Measured T-Post Locations

Bi-Fold Hinged Panels

Bi-Fold Track System

6672 English Saddle with 3½" Louver and Bi-Fold Track Frame with 2½" Standard Valance

Bi-Fold Track System with 2½" Standard Valance

Bi-Fold Track System with 5⅛" Standard Valance

Bi-Fold Track System with Decorative Valance

Track systems can be configured with bi-fold hinged panels or panels that slide past each other to open and close.

Bypass Track System

6650 True White with 3½" Louver and Bypass Track Frame with Decorative Valance

Bypass Track System with 5⅜" Standard Valance

Bypass Track System with Decorative Valance

Bypass Open Louver Track Detail

This track system allows shutter panels to slide with the louvers in an open position for increased view-through.

Bypass Triple Track Detail

With a three-track design, panels slide and stack in less space than a standard Bypass Track, allowing for improved view-through within a single opening.
