EAST WEST

The newest collection from S. Harris reminds us of the important role that connection plays in design. Through intricate storytelling, East West unearths the richness that lies at the heart of life's ordinary moments—the ones that connect us to our roots, ground us in the present, and guide us for the future.

S.HARRIS®

Every S.Harris collection is a love letter to the design world—a tribute to history, the power of inspiration, the romance of travel, and the magic of storytelling.

Our pursuit of creativity is alive in every person, fabric, wallcovering, and trimming we touch.
